DETAILED ACTION

Status of the Claims

1. This action is in response to amendment filed on August 17, 2006. Claims 42-72 are pending.

Election/Restrictions

2. This application contains claims directed to the following patentably distinct species:
 - I. Claims 42, 52, 62, 43, 53, 67 and 72 disclose a request to initiate contact;
 - II. Claims 42, 52, 62, 44, 51, 54 and 65 disclose different telephone networks;
 - III. Claims 42, 52, 62, 45, 47, 55, 57, 58 and 68 disclose displaying summary indicators;
 - IV. Claims 42, 52, 62, 46, 56, 64 disclose different instant messaging networks;
 - V. Claims 42, 52, 62, 48 and 69 disclose the group of persons form a sales staff;
 - VI. Claims 42, 52, 62, 49, 59 and 66 disclose a single icon indicator;
 - VII. Claims 42, 52, 62, 50, 60, 61, 70 and 71 disclose an indicator displayed on a wireless phone; and
 - VIII. Claims 42, 52, 62 and 63 disclose a presence detection engine.
3. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 42, 52 and 62 are generic.
4. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable

Art Unit: 3621

thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

5. Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

6. The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

7. Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103 (a) of the other invention.

8. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
